

MEng Project Handover Inventory List

Beichen Yu (by325)

May 2026

Project Information

- **Project Title:** TGR-LORA: A Continual Learning Pipeline for Small Language Models
- **Field Advisor:** Vikram Krishnamurthy
- **Project Mentor:** Adit Jain (aj457)
- **Degree Date:** December 2026

Physical Box Contents

1. **Final Design Project Report (Hard Copy)**
One printed copy of the final report (including all appendices and code listings).
2. **Digital Media (USB Flash Drive)**
A USB drive containing:
 - The final report (PDF version).
 - Full source code archive.
 - **Experimental Data:** All raw JSON results (`sequential_history.json`, `k4.json`, `k8_history.json`, `k16.json`).
3. **Project Poster (Hard Copy)**
The printed poster used during the MEng Poster Session on May 8, 2026.
4. **Software Documentation**
A printed copy of `README.md` and the User Manual for environment setup and reproduction.

Digital Repository Access

- **GitHub URL:** <https://github.com/byu959397-cell/ECE-5996-design-proj-code.git>
- **Contents:** Source code, Configuration YAMLs, JSON result logs, and AI-usage disclosure reports.

This material is provided for future students to reproduce and expand upon the project work.
